Design 1: Personal Multi-Page Website Project

Summative rubric (100 points). Build: Weeks 10-11. Submit: Week 12, Lesson 2. Present and reflect: Week 12, Lessons 3-4.

Your website must have: at least 4 pages with the full skeleton | the same working menu on every page | headings, paragraphs, a list and strong/em | at least 2 images with alt text | a table of real data | a form with 3+ labelled fields.

Category	Exceeds Expectations	Meets Expectations	Approaching Expectations	Beginning
HTML Structure & Syntax (15 pts) My score: ____	**14-15 pts:** Every page uses valid, correctly nested HTML with no syntax errors. Document structure (doctype, html, head, title, body) is flawless across all pages.	**11-13 pts:** Pages use correct HTML structure with only minor, non-breaking issues (e.g. inconsistent indentation).	**7-10 pts:** Structure is mostly correct but has some errors: a missing tag, incorrect nesting, or a broken element on at least one page.	**0-6 pts:** Structure is incomplete or broken on multiple pages; pages may fail to render correctly.
Content & Text Formatting (15 pts) My score: ____	**14-15 pts:** Headings are used in a clear, logical hierarchy; paragraphs and lists organize content effectively; formatting tags (strong/em) are used purposefully throughout.	**11-13 pts:** Headings, paragraphs, and lists are used correctly and organize content clearly, with minor inconsistencies.	**7-10 pts:** Some content is organized with headings/paragraphs/lists, but structure is inconsistent or a heading level is skipped/misused.	**0-6 pts:** Content is mostly unformatted text with little to no use of headings, paragraphs, or lists to organize it.
Navigation & Multi-Page Structure (20 pts) My score: ____	**18-20 pts:** Every page is connected by a consistent, fully working navigation menu; a visitor can reach any page from any other page with no dead ends.	**14-17 pts:** Navigation works across all pages with only a very minor inconsistency (e.g. slightly different menu order).	**9-13 pts:** Most pages are connected, but navigation is missing from at least one page or contains a broken link.	**0-8 pts:** Site is a single page, or multiple pages exist but are not properly connected by navigation.
Media Integration: Images & Tables (15 pts) My score: ____	**14-15 pts:** Images are appropriately sized, purposefully placed, and have meaningful alt text; any tables are well-structured and clearly present real data.	**11-13 pts:** Images and/or tables are used correctly and support the content, with minor issues (e.g. a generic alt description).	**7-10 pts:** Images or tables are present but have technical issues (broken path, missing alt text, mismatched table cells) or feel unnecessary to the content.	**0-6 pts:** Images and/or tables are missing, broken, or not used at all where they were expected.
Forms & Interactivity (10 pts) My score: ____	**9-10 pts:** At least one form is fully functional, with correctly labeled inputs matched to their fields, and clearly serves a real purpose on the site.	**7-8 pts:** A form is present and mostly functional with correct labeling, with minor issues.	**4-6 pts:** A form is present but has missing labels, incorrect input types, or does not clearly serve a purpose.	**0-3 pts:** No working form is present.
Design Consistency & Polish (15 pts) My score: ____	**14-15 pts:** The whole site feels like one cohesive product: consistent navigation placement, heading styles, and layout across every page. Presentation-ready.	**11-13 pts:** Site is mostly consistent across pages with only small variations.	**7-10 pts:** Noticeable inconsistencies between pages (different navigation style, inconsistent heading use, uneven formatting).	**0-6 pts:** Pages feel disconnected or unfinished; little consistency across the site.
Presentation & Reflection (10 pts) My score: ____	**9-10 pts:** Presents the site confidently and clearly, explaining its purpose and audience, and offers a genuine, specific reflection on its impact and one real area for improvement.	**7-8 pts:** Presents the site clearly and reflects on its purpose and effectiveness with minor gaps in depth.	**4-6 pts:** Presentation covers the basics but lacks clarity, confidence, or meaningful reflection.	**0-3 pts:** Presentation is missing, incomplete, or does not explain the site's purpose or impact.

Total: _____ / 100 **Use this rubric to check your own website before you submit it.**
